

2020 Entry into Teaching

Report Key

The Placement report visualizes full time employment in an Illinois public school.

Program Level: Filter the data by selecting undergraduate and/or graduate level.

Completers with Full-Time Employment: View the number of completers from each program year who found full-time employment in teaching or other educational roles within two years of program completion.

Considerations:

- ISBE only collects employment data from the state’s public schools (including charter schools). Completers employed in a non-public or out-of-state school are not included in this report.
- Employment is inclusive of all educational roles requiring a state educator license (excluding substitute teachers). Each year, school districts report all licensed personnel to the State in the Employment Information System (EIS).

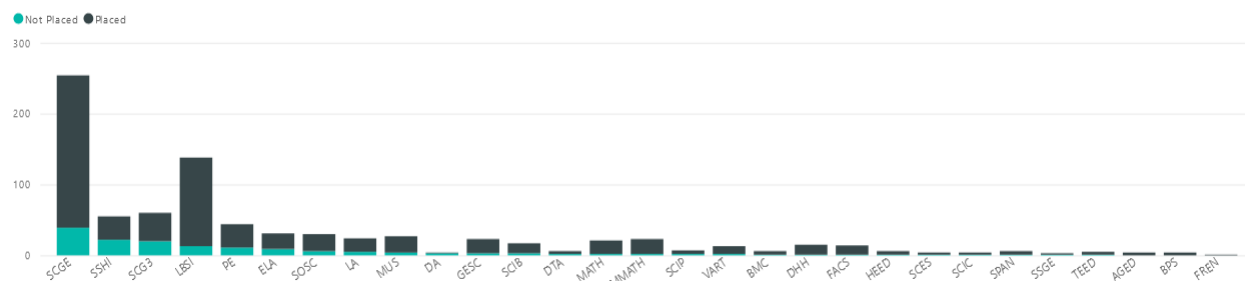

Placement

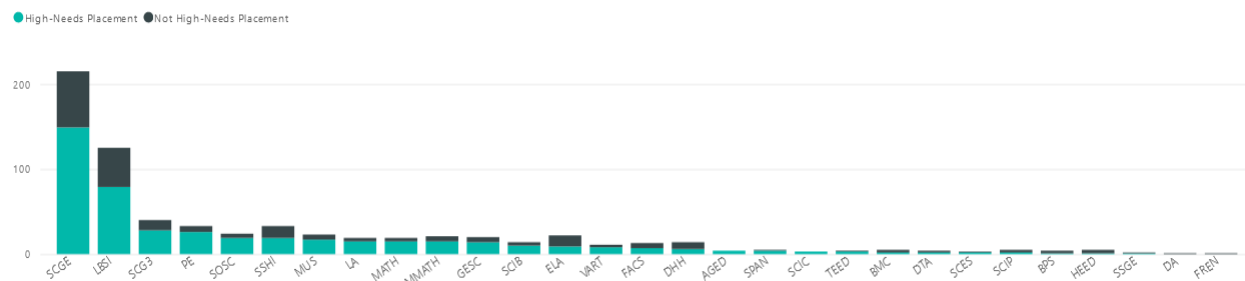

ISBE Program Abbreviation Glossary
Undergraduate Level

Program Year: 2020
 Institution: All
 Program Level: Post-Bacc, Undergraduate
 Program Category: All

Completer Detail by Program

Placement Detail by Program

- AGED – Agricultural Education
- BMC – Business, Marketing, and Computer Education
- BPS – Blind or Visually Impaired
